

Read Me. (5 June 2015)

These are still draft documents which have not yet been posted to the SCAMIT website. I continue to go back to them and make small tweaks and corrections from time to time. The date of last update is part of the title of each section. All of the sections currently on the SCAMIT website have been re-examined, updated, corrected, and expanded. If you find errors of omission or commission in any of these documents, I would appreciate hearing from you so that those errors can be corrected.

Thanks in advance for any input you care to provide.

Don Cadien
