

SPIONIDAE

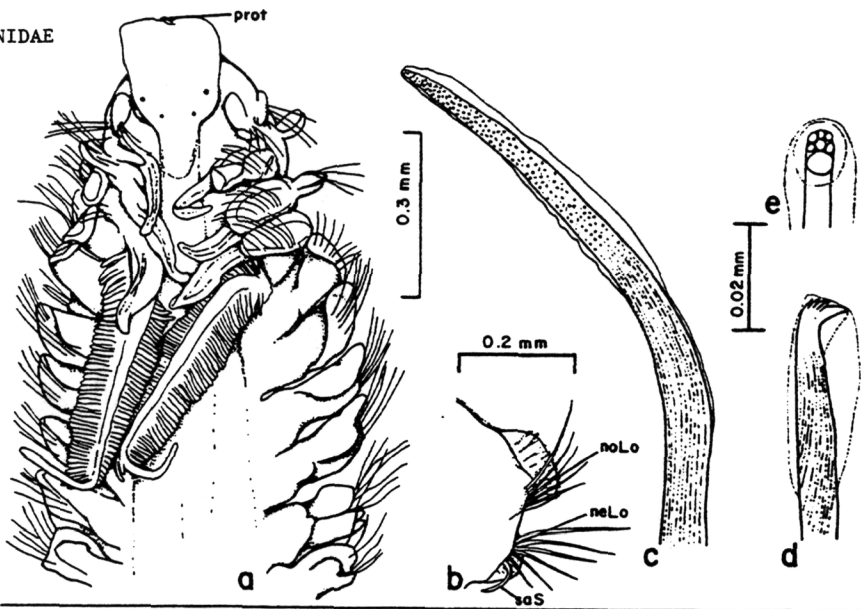

Figure 6-52. *Prionospio (Apoirionospio) pyraeae*: a, anterior end, dorsal view; b, parapodium from setiger 13; c, sabre seta; d, hooded hook, lateral view; e, same, frontal view.

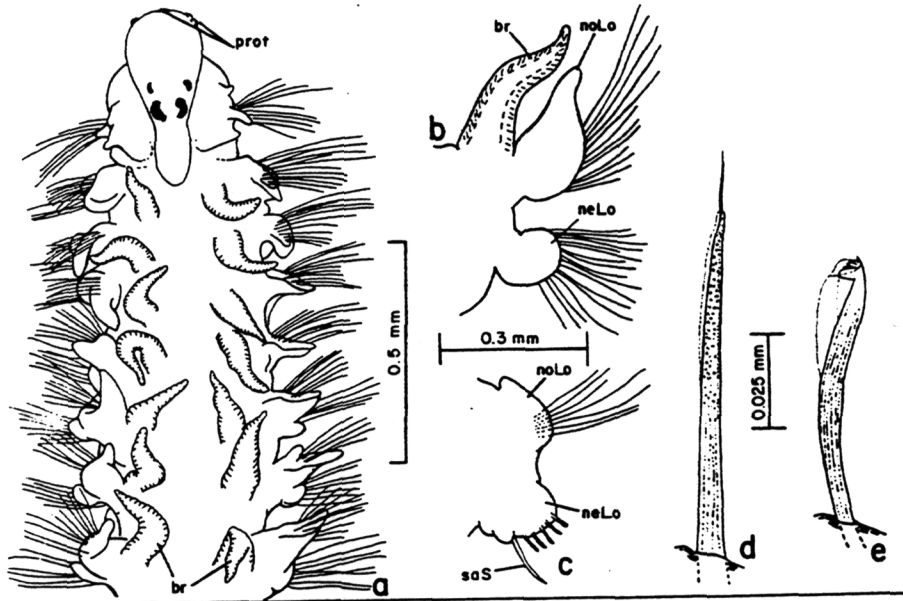

Figure 6-44. *Prionospio (Minuspio) cirrifera*: a, anterior end, dorsal view; b, parapodium from setiger 8; c, same, from setiger 20; d, sabre seta; e, hooded hook.

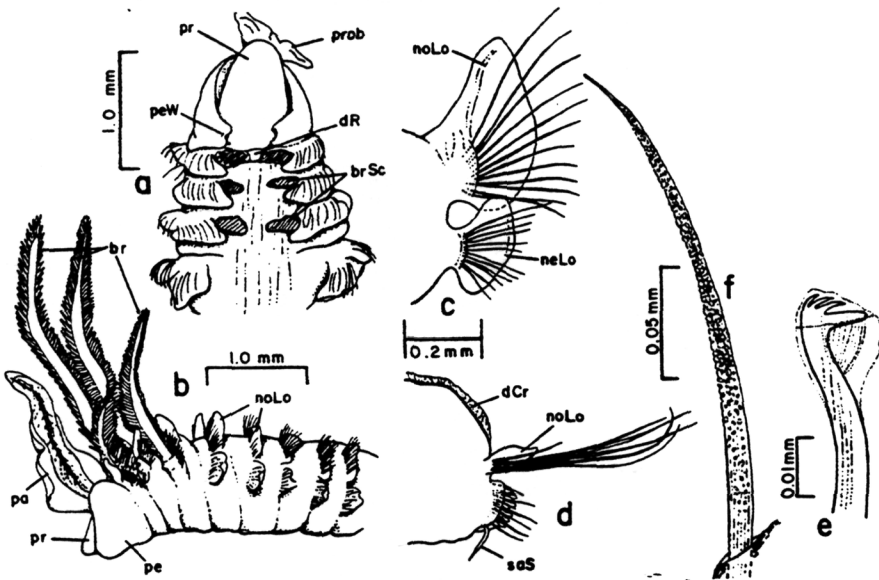

Figure 6-36. *Paraprionospio pinnata*: a, anterior end, dorsal view; b, same, lateral view; c, parapodium from setiger 3; d, same, from posterior setiger; e, neuropodal hooded hook; f, sabre seta.

SPIONIDAE

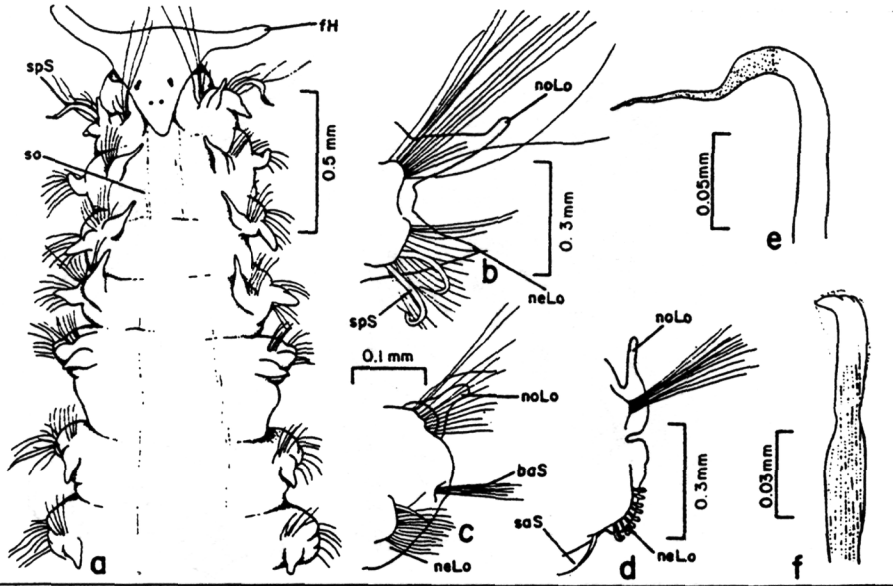

Figure 6-2. *Spiophanes bombyx*: a, anterior end, dorsal view; b, parapodium from setiger 1; c, same, from setiger 6; d, same, from posterior setiger; e, recurved seta from setiger 1; f, hooded hook, lateral view (Figures b,c,d from Foster 1971, figs. 68, 69, 71).

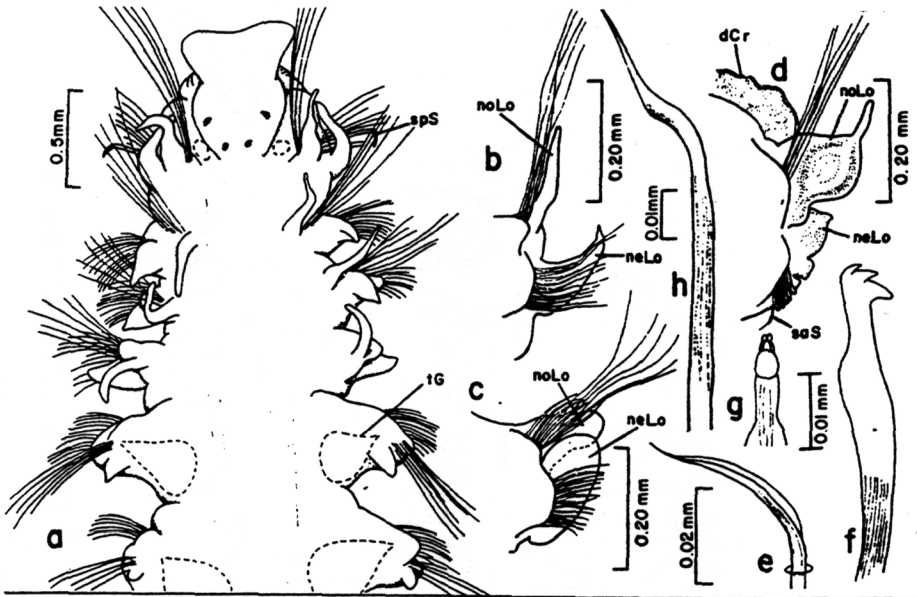

Figure 6-8. *Spiophanes missionensis*: a, anterior end, dorsal view; b, parapodium from setiger 2; c, same, from setiger 8; d, same, from setiger 7; e, same, from setiger 21; f, hooded hook, lateral view; g, same, frontal view; h, notoseta from far posterior setiger.

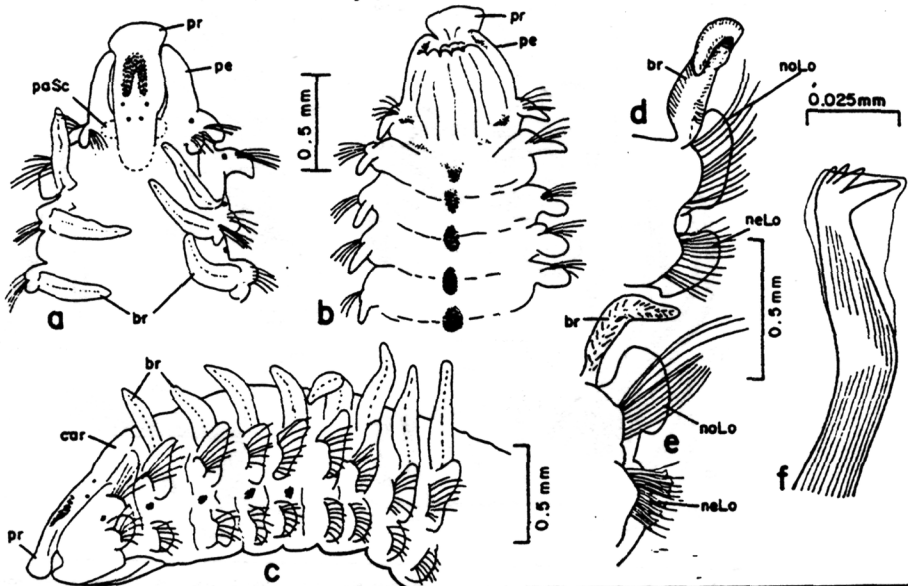

Figure 6-56. *Microspio pigmentata*: a, anterior end, dorsal view; b, same, ventral view; c, same, lateral view; d, parapodium from setiger 8; e, same, from setiger 20; f, hooded hook, lateral view.
