

Rheopoxynius stenodes (Barnard, 1960)

Phoxocephalidae

---

---

Date Examined and Code: September 13, 1982, OCSD 6

Keys Used: Barnard. 1960. A. Hancock Pacific Exp. 18(3)

Other Literature: Barnard. 1979. Proc. Biol. Soc. Wash. 92(2):368-379.  
Barnard, J.L. and C.M. Barnard. 1982. Smithsonian Contrib. to Zool.  
357.

Important Characters: Very narrow rostrum. Four or five small to  
medium teeth on peracopod 5.

Related Species and Character Differences: Related to R. abronius but  
differs by lacking epistomal cusp, and having fewer teeth on  
peraeopod 5.

Variability: Setation and shape of pleonal epimeron slightly variable.  
Teeth on peraeopod 5 also slightly variable.

Common Synonyms: Paraphoxus stenodes. (Barnard. 1960)
